

Oran Park Library & Community Hub

Case Study

At the heart of the new suburban township of Oran Park, south west of Sydney, is the Oran Park Library and Community Hub, designed by Brewster Hjorth Architects and built by Adco Constructions. Located on the main Civic Square, adjacent to the new council administration building, it has been dubbed the “community’s lounge room” and will take on greater importance as the township continues its expansion.

record Automatic Doors supplied and installed four bi-parting and two single sliding STA 21 automatic door operators, with frameless toughened glass door wings, to the three airlock entrances of the centre.
